

# Join the Electric Revolution

Introducing Pluto Dual, the all-electric, no-idle reefer units designed and built in North America by Volta Air Technology Inc. to transform your refrigerated transport operations.

#### Fits Your Fleet

Compatible with both electric (EV), gas or diesel (ICE) vans and small trucks.

#### **Cut Costs**

Reduce maintenance, downtime and fuel consumption. Leverage potential government rebates.

#### **Boost Performance**

Reliable and advanced cooling for superior cargo protection.

#### Go Green

Eliminate emissions and pollution. Comply with CARB regulations.

## PLUT@ DUAL

# Double the Cooling, Double the Flexibility

Upgrade your fleet with a 24V electric reefer unit, Enjoy flexible configuration options and lower operating costs, compatible with a wide range of electric and conventional van models.

#### Dual Cooling Power

Single evaporator, singel zone with dual cooling power. (Dual zone cooling available upon request.)

#### Independent Operation

No reliance on the engine, saving fuel and maintenance costs.

#### No-Idle Cooling

Maintains the temperatures during deliveries when the vehicle's engine is off.

#### Long Running Time

Can operate all day, whether the vehicle's engine is on or off.

#### Integrated Stand-by (Optional)

Optional 110V/240V plug-in for home base charging.

#### Digital Control Panel

Monitor temperature and settings from the driver's seat.

#### • Smart Control Panel (Available) Refer to page 6 for more info

Monitor temperature and seamlessly integrates with the Tritracker system.

#### Low Maintenance Design

Reduced number of moving parts for long-lasting performance.

#### Quick and Easy Installation

One person can install Pluto in under a day.

#### CARB Compliant

Meets California's strict emissions standards. Potential of rebates availability.

# Pluto Dual Specification (24V EV-Compatible)

Model		Pluto Dual 24V (12V available upon request)	
		Fresh	
Voltage		24V	
Refrigerant		R134a (4.8 lbs.)	
Cooling Capacity	+15°C (60°F)	6,300 W (21,496 BTU/H)	
	+5°C (41°F)	5,000 W (17,060 BTU/H)	
	-15°C (5°F)	2,600 W (8,871 BTU/H)	
Heating Option		Hot Gas Heating	
Heating Capacity		2900 W (9,895 BTU/hr)	
Defrost		Hot Gas	
Compressor Type		24V DC Brushless	
Evaporator Air Volume		≥ 1,530 M³/H (900 CFM)	
AMP Average		24V 86A	
AMP Maximum		24V 111A	
Condenser Dimensions		1100 x 1265 x 210 mm (43.3 x 49.8 x 8.2 in)	
Condenser Weight		61 kg (134.5 lbs.)	
Evaporator Weight		23.5 kg (51.8 lbs.)	
Control Panel		Digital (Celsius – Fahrenheit) / Analog (By customer Request)	

Add Optional Battery Power					
Battery Pack	Number of Batteries	4	8		
	Battery Pack Weight	80 kg (176.4 lbs.)	160 kg (352.7 lbs.)		
	Charger Options	1200 W AC - DC / 2400 W AC - DC / 3600 W AC - DC			
	Pack Capacity	10,250 Wh	20,500 Wh		
	Estimated Runtime	Up to 6 hours	Up to 12 hours		

# How Does Pluto Dual Work?

#### Single-zone

The Pluto Dual, equipped with a single evaporator, delivers dual cooling power. Designed for efficiency and performance, our single-zone cooling ensures optimal conditions for transporting fresh products, minimizing environmental impact.

# TriTracker & Smart Control System (Optional) Take control of your reefer performance

Stay informed and in control with the TriTracker, a comprehensive monitoring system designed specifically for the Volta Air Pluto Dual refrigeration units. Gain real-time visibility and optimize your refrigerated transport operations!

#### ■ Real-Time Visibility, Anywhere, Anytime

The TriTracker system seamlessly integrates with the smart controller, providing real-time data access to your cloud-based platform.

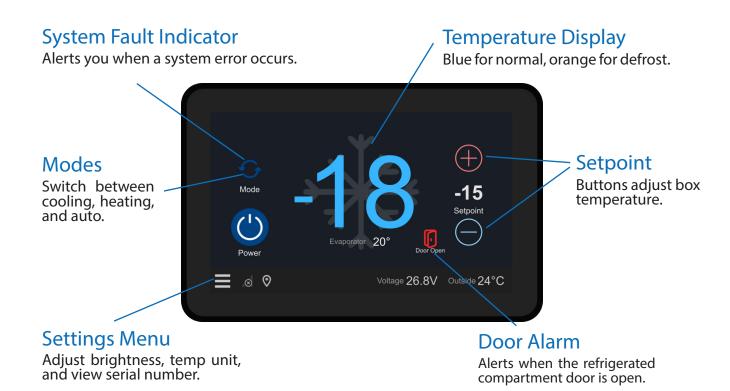

#### ■ Enhanced Efficiency & Reduced Risk

Guarantee on-time deliveries with consistent temperatures, and receive maintenance alerts to maximize uptime and optimize fleet performance.

# **In-Cab Smart Controller**

Take control at your fingertips with the intuitive 5-inch Volta Air control panel, allowing you to monitor, adjust, and receive alerts – all in one place.

# Volta Air, More Than Just Reefer Units: A Partnership for Success

We are committed to your operational excellence through superior products and support.

At Volta Air, we leverage over 10 years of experience, along with advanced R&D, and a dedicated sales network to deliver innovative electric refrigeration solutions that power your fleet's success.

- Industry-Leading Technology: The Pluto series are designed for performance and longevity.
- Expert Support: Our team is dedicated to helping you maximize your investment.
- Commitment to Sustainability: We're passionate about a greener future for transportation.
- Customer Satisfaction: Our clients are our top priority, and their success is our success.
